

# Rail Installation Guide

## 1 Installation Kit

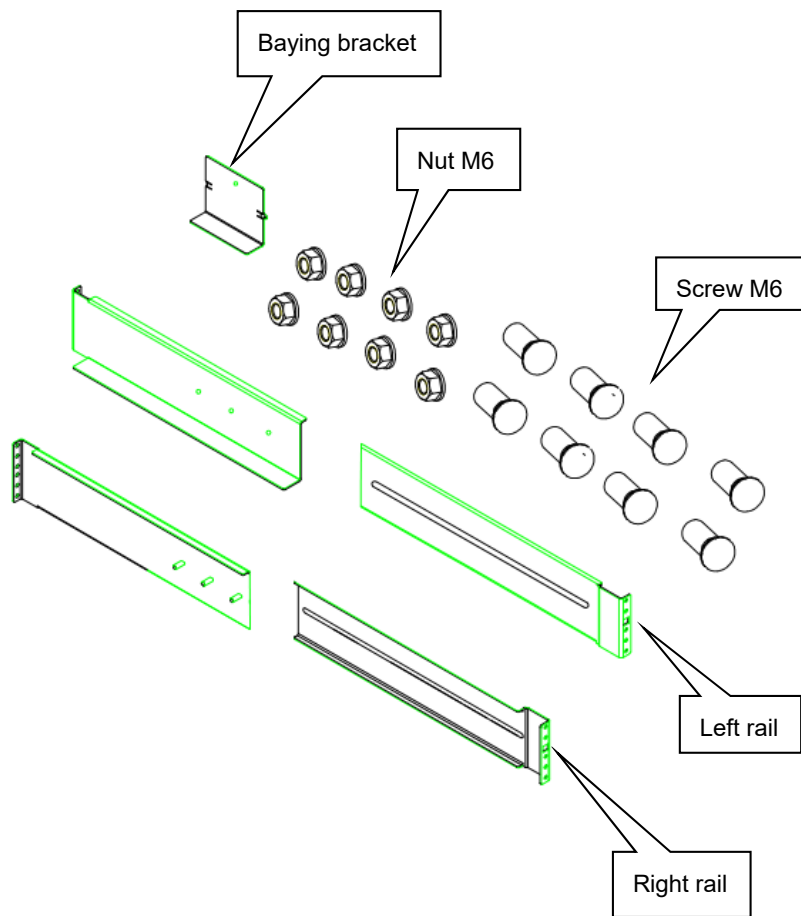

Right rail slider x 1

Left rail slider x 1

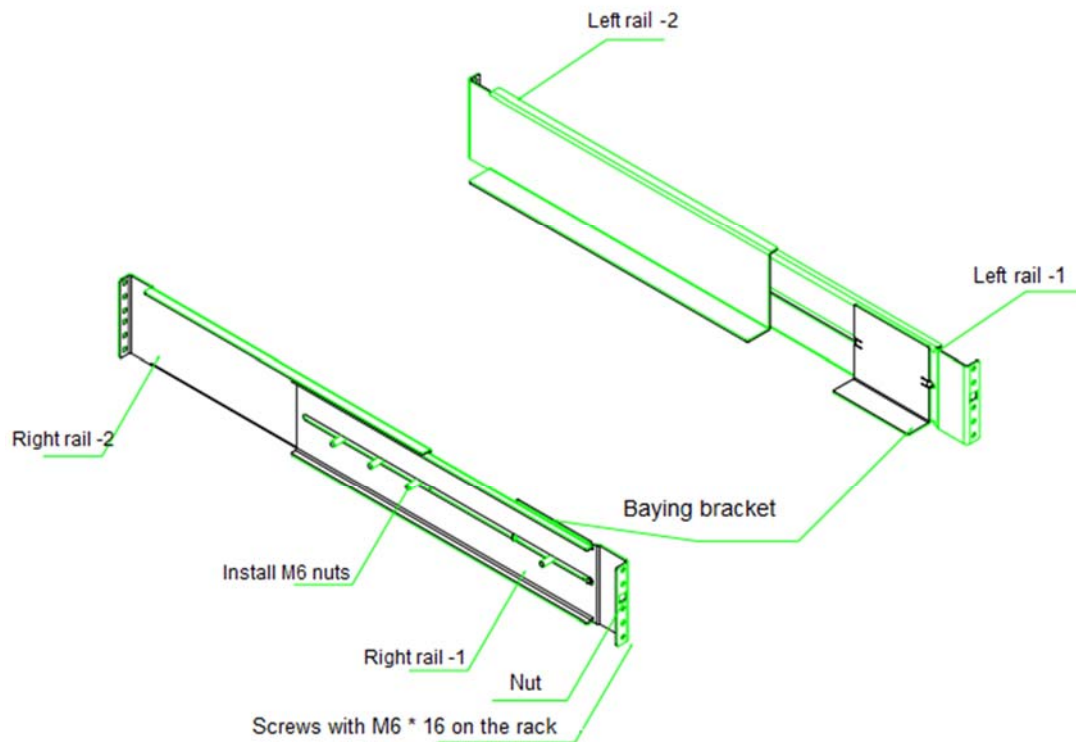

Nut M6 × 8

Screw M6 × 8

Baying bracket x 1

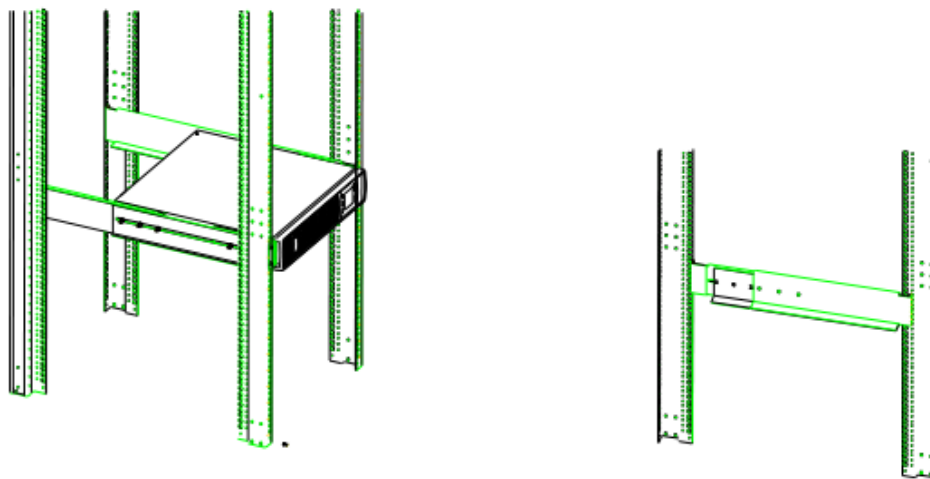

## 2 Assembly Steps

As shown in the above figure, assemble the left rail, right rail, baying bracket and nuts, then install the slide rails into the rack. You can adjust the depth to match the rack by the slide rails. The rail can be compatible with a minimum of 440 mm, and a maximum of 711 mm.

## 3 Rack-Mount Installation

Adjust the rail according to depth of the rack. It should not be greater than the maximum size of the rack rail, and not be shorter than the minimum size of the rack rail as well. Fasten the rails with screws.
